Detailed Action

Allowable Subject Matter

Claims 9-24 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: Claims 9 and 17 are allowable because the prior art of record or that encountered in searching for the invention, fails to disclose or suggest a system and a computer program product for performing a pattern match search for a data string having a plurality of characters separated by delimiters, system comprising means for constructing a search key by generating a full match search increment comprising the binary presentation of a data string element, wherein said data string element includes a plurality of non-delimiters between a pair of delimiters and concatenating a pattern search prefix to said full match search increment to form said search key, wherein said pattern search prefix is a cumulative pattern search result of all previous full match search increments, as claimed.

Claims 10-16 and 18-24 depend from claims 9 and 17, and are therefore allowable.
